Education

Madan Mohan Malaviya University Of Technology

B.Tech in Electronics and Communication Engineering (CGPA: 7.34 / 10)

Expected June 2025

Gorakhpur, Uttar Pradesh

Experience

AlgoFlow AI

September 2024 – November 2024

Full Stack Developer intern

Remote

- Merged a card feature in the RMS (Restaurant Management Service) project using JavaScript and TypeScript.
- Leveraged Git/GitHub for efficient version control and secure team collaboration.
- Refined animations with Framer Motion and integrated a response capture form on the website.

Pyramid Developers

March 2024 – April 2024

Frontend Developer intern

Remote

- Developed a doctor-patient appointment system in the Animex project to check availability.
- Enhanced website performance and user experience by implementing new features and resolving bugs.
- Crafted responsive websites with Next.js, Express.js and Firebase, ensuring high functionality.

Projects

Simpl Social (Social Media Application)

[Link.](#)

- Full-stack social media platform for posts, likes, comments, and video chat.
- Strengthened data security by implementing JWT authentication, boosting data security by 40% and preventing unauthorized access, enhancing customer trust for 1,500+ active users.
- Technologies: React.js, Node.js, Express.js, Vite, RESTful APIs, TailwindCSS, MongoDB, DaisyUI.

Type Racer Game

[Link.](#)

- Created a Type Racer game with multiplayer and single-player modes, featuring real-time speed tracking.
- Integrated an interactive leaderboard displaying top performers' typing speed and accuracy (98.6% precision).
- Technologies: React.js, Node.js, Vite, Express.js, Socket.io, RESTful APIs, Mongoose, DaisyUI.

Simpl Gram (Chat Application)

[Link.](#)

- Built a chat app, enhancing user interaction and increasing user engagement by 35%.
- Implemented NextAuth and Pusher.js, enhancing real-time messaging by 50%.
- Technologies: Next.js, TypeScript, NextAuth, Prisma, MongoDB, TailwindCSS, Zod, Pusher.js.

Technical Skills

Languages: C++, C#, Python, JavaScript, TypeScript.

Framework & Technologies: React.js, Next.js, Node.js, Express.js, React Native, Tailwind CSS, MongoDB, Firebase.

Tools: Git, GitHub, Docker, VS Code, Postman, PostgreSQL.

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object-Oriented Programming.

Achievements

- Achieved 14th place out of 10,000+ participants (Top 0.14%) in the **GFG Job-a-thon Challenge**.
- Ranked 294th globally among over 26,000 participants (Top 1.13%) in the **LeetCode Biweekly Contest**.
- Attained a position in the top 0.4% of global contributors in **Hacktoberfest**, an annual open-source challenge.
- Secured a top 5% ranking in the **GFG Adobe Gensolve Challenge 2024**.
- Clinched 105th position in India (Top 0.84%) in the **Amazon ML Challenge on Unstap 2024**.

Coding Platform Ratings

- **LeetCode:** Positioned in the top 3.9% with the title of Knight and a rating of 1926. [Link.](#)
- **CodeChef:** Garnered 3-star status in competitive programming with a peak rating of 1631. [Link.](#)
- **GeeksforGeeks (GFG):** Solved 250+ algorithmic challenges on GeeksforGeeks, earning a three-star rating [Link.](#)
- **CodeForces:** Reached a maximum rating of 1225 and holds the title of Pupil. [Link.](#)
